

## OIL & GAS/ PETROCHEMICAL SERVICES

ProUsys offers a full range of electrical, automation/control and instrumentation services from a licensed electrical/automation technician to a total project execution team on a full field development project. Specific services include well hookups, well automation and power distribution for a variety of facilities such as water plants, gas plants and oil distribution systems. Our experienced management teams, skilled craftsmen, tracking and scheduling systems coupled with state of the art equipment ensures your project is completed on time and on budget. ProUsys' quality assurance process is enhanced by its investment in training for all personnel, PPE, trade tools and certified test equipment.

ProUsys provides a diversified and skilled professional staff managing your new oilfield and petrochemical projects as well as your ongoing maintenance.
